Entering the Online Video Auction

This may seem like a lot of steps but in practice is a quick process. If you need help please call our office at 559-582-0404.
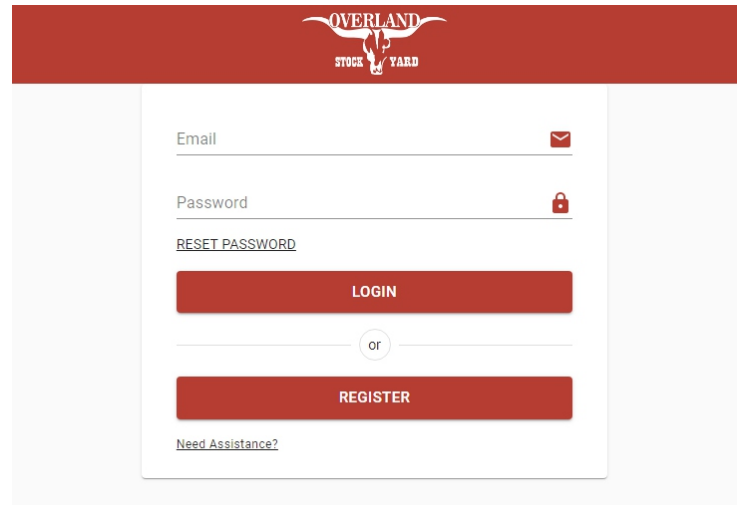

1. Log in and bid online by using a computer, labtop, tablet, or smartphone. Go to our webpage at www.overlandstockyard.com and look for the login button in the top right corner of the page. This button is present throughout our webpage. On a smartphone this button is located in the center of the screen.

Welcome to Overland Stock Yard!

2. Once you click the login button you will be brought to a new page where you will be asked to enter your login credentials so you can enter the online sale community. Enter your email and password then press the login button. New bidders can also register by clicking the register button.

 A "View Only Mode" will appear starting 2 hours before sale time. In view only mode you can attend the sale without needing to register; however, you will not have the ability to bid.
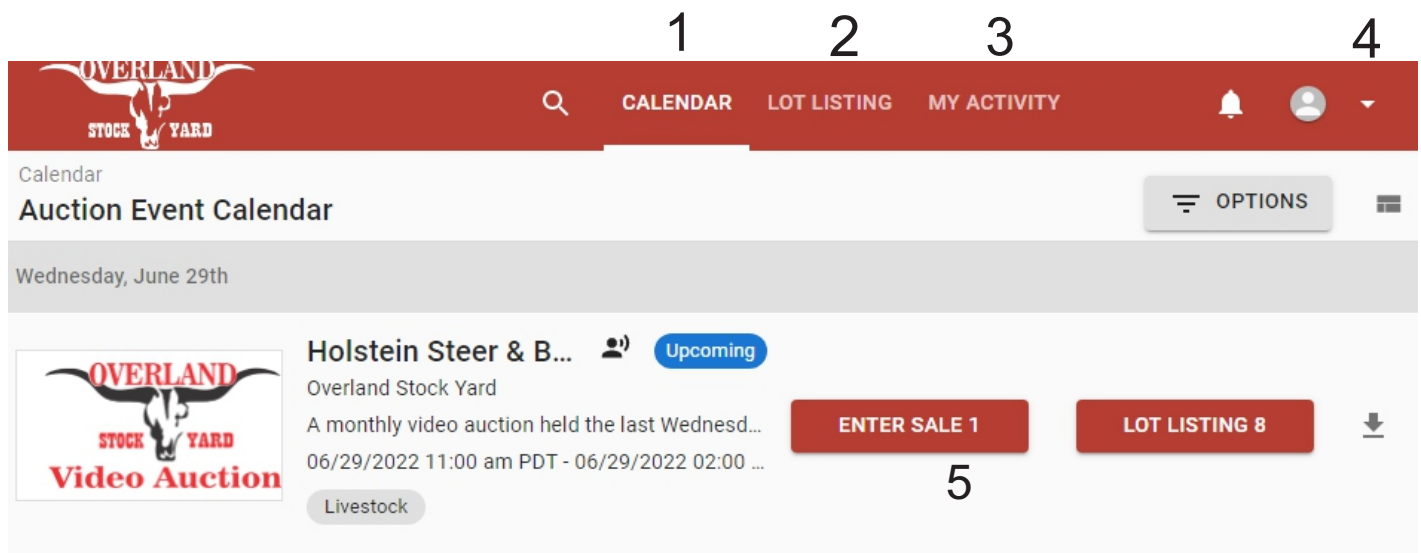

During the changeover from our old system to our current system we transferred existing profiles over. For existing bidders you will no longer enter your old username which consisted of a buyer number. Instead you will enter your email that Overland had on file when you originally registered. Your password has not changed. You can also reset your password here as well.

3.   Once Logged in you will be taken into the online sale community. On the calendar tab (1) you will see a list of our online auctions. You can scroll up and down and find the auction you want to enter or view its Lot Listing. Click on the "Enter Sale" (5) button of the sale you want to participate in.
    Listed on the top menu bar is "calendar" (1), which shows all upcoming sales. "Lot Listing" (2) which shows all available lots from every auction. On the lot listing page there are category specific filters to help your narrow your search down to specific sales and type of cattle. "My Activity" (3) which will show your history and purchases. Your "profile" (4) where you can update your personal information including your business name, email, and password.
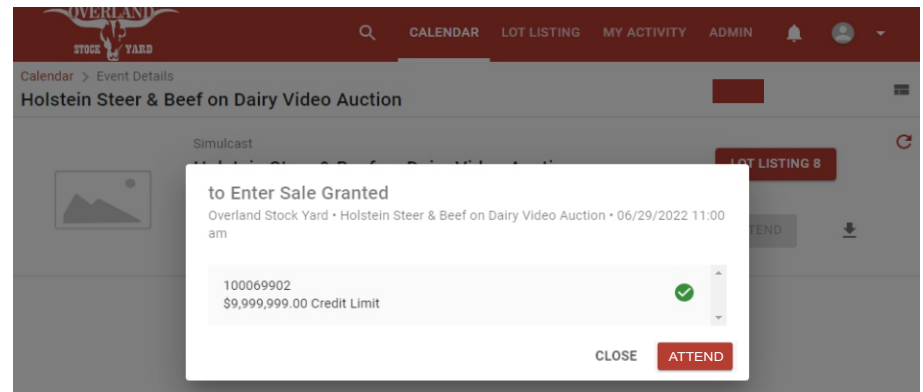

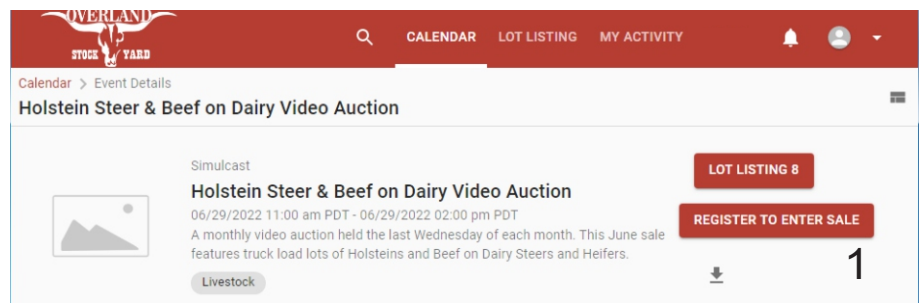

4. Once you click on enter sale, you will be brought to the "Event Details" page where you will click "Register to enter Sale" (1).
Once you are registered for the sale a pop up will appear showing that you are granted permission to enter. You also may be asked to fill in a few more criteria such as a business name.

You can close this window or click the "Attend" button. Once you click the attend button you will be brought to the bidding screen/live sale which is shown below in the Bidder Userface section. The attend button will not appear until 2 hours before the sale start time.

Bidder Userface

1. This area will either have a "P" or an "H: referencing if it is "Price per Head" or "Price per Pound" for the lot

2. Click this button ((•●•)) to switch to live Video. Click this button (📹) to switch to recorded video. Click this button (🖼) to switch to pictures.

3. This is your menu button. When clicked on it will expand and present several features. The two relevant menu items are clerk chat and view purchases. Clerk chat opens a private chat box with the clerk where you can chat directly with the auction block. In our online sales the winning bidder has the option to choose how many head or loads they want in the lot. In our Dairy Dispersal Auctions the loads are not predetermined, so we use the clerk chat feature to communicate how many head/loads you want. In our Holstein Steer & Beef on Dairy Cross Video Auction the loads are predetermined, the winning bidder will have a box appear on their bidder screen, check mark the loads you want and press submit. You can also clerk chat how many loads you want to purchase.

4. This is your bid button, click on the button in order to bid. This area will also notify you if you are the highest bidder or if you have been outbid.

5. This is the max bid button, once a number has been placed in the max bid field, then click the "add max bid" button to submit your max bid. This will make you the highest bidder up to your max bid. Click it again to clear the max bid. There is a max bid for the lot we are on and for future lots.
